WASHINGTON, DC

Dear Gabe:

I write in response to your recent letter regarding documents for use at trial and Power Integrations' exhibit list. First, we will bring and use Dr. Eklund's original documents at trial, and per your request we will make them available for inspection two days before Dr. Eklund testifies. Second, also per your request, we have separated trial exhibit PX37 into its constituent parts, and we have re-marked the two original documents as PX29 and PX30 for use at trial. Copies of these newly-marked exhibits are enclosed.

Third, there are a few outstanding issues with respect to Fairchild's documents. Fairchild added one of the Beasom invention disclosure forms to its exhibit list this week, but you did not include the second Beasom invention disclosure form. As such, I have added that second document to Power Integrations' exhibit list as PX31, and a stickered copy of that exhibit is enclosed. Fairchild produced a poor quality copy of this document, though, so I ask that you provide a cleaner copy. Also, we have not received stickered copies of any of the new exhibits Fairchild has added to its list since the first trial, so please provide those as soon as possible as well.

We have revised Power Integrations' exhibit list in accordance with these changes and filed it with the Court, and I have enclosed a copy of the exhibit list for your reference as well.

Sincerely,

Michael Headley
